ColorID, LLC offers all-in-one Mobile Badging case

ColorID offers campus carding offices an affordable mobile badging case.

CORNELIUS, NC – August 22, 2007- After recognizing that many of its customers required a mobile badging case, ColorID has created an all-in-one solution. ColorID is now offering a mobile badging case that allows customers to transport their ID Printer and their entire ID System (ID Printer, laptop, backdrop, camera, tripod, supplies and additional equipment) in a rugged, transportable case. By doing so, campus card offices can now setup their remote carding stations without the hassle and worry of breaking their fragile systems.

The mobile badging case offers a variety of solutions to your needs:

- Safely transport your current ID System to a location on/off campus
- Be prepared with your own Disaster Relief Back-Up System
- Store your back-up ID Systems safely away from the elements

ColorID's cases come with a lifetime warranty and each case is custom fitted with high strength foam, so all your items can properly fit inside your mobile badging case.

Danny Smith, VP of ColorID stated, "It's a great new product that we are proud to offer to our customers. A lot of campus card offices have a need to safely transport their ID System to and from remote locations on/around campus. By using our mobile badging case, they can limit the chances of breaking/damaging their equipment in route to their destination."

About ColorID

ColorID is one of the world's leading ID system suppliers to the campus card industry. ColorID's products are used in "One Card" systems, access and control systems, computer networks, point of sales systems and loyalty systems. ColorID supplies a full line of ID products including ID stations, ID printers, system software, ID ribbons, proximity cards, pre-printed cards, blank cards, smart contact & contactless cards, logical access solutions and ID badge accessories.
