

## **Press Release**

### **Digital Identification Solutions adds two new products to its portfolio of capture solutions: *EDIssecure*<sup>®</sup> Premium Webcam and *EDIssecure*<sup>®</sup> CCD 7000 Image Capture Module**

**Stuttgart, Germany, October 21, 2008 – Digital Identification Solutions AG, a worldwide leader of identification solutions, has announced the extension of its portfolio of capture solutions during the GITEX Technology Week 2008, WTC, Dubai, United Arab Emirates.**

The German-based Digital Identification Solutions Group has introduced two new camera modules, the *EDIssecure*<sup>®</sup> CCD 7000 Image Capture Module and the *EDIssecure*<sup>®</sup> Premium Webcam Capture and Image Enhancement Module. Due to the extension of its portfolio of capture solutions, the company now offers an appropriate camera module for every special customer need and budget.

The *EDIssecure*<sup>®</sup> CCD 7000 Image Capture Module has been designed for use in high volume applications with high quality images even under difficult conditions. Rapid image capturing with exceptional picture quality can be achieved. The cutting-edge Sony sensor results in true colors and unrivalled image sharpness. The camera with built-in 18x optical zoom automatically takes care of focus, white balance, gain control and back-light compensation. The software application independent direct camera interface incorporates a range of advanced features such as portrait and landscape mode, high-res live video for preview as well as mouse controlled zooming. The *EDIssecure*<sup>®</sup> CCD 7000 is equipped with a professional LED Ring Flash for capturing even in a difficult environment with unpredictable or changing light conditions.

*EDIssecure*<sup>®</sup> Premium Webcam Capture and Image Enhancement Module allows easy image capturing with perfect details and clarity. The webcam is perfectly suited for all Photo ID applications of organizations, associations, and companies. The compact and light camera will come with an integrated desktop stand and USB connection cable. Digital zoom, auto exposure, premium auto focus and the resolution of 2 Megapixel provide high-qualitative pictures with perfect images details, even in close-ups. The camera offers motorized tracking for intelligent, automated head-following. The camera comes with an *EDIssecure*<sup>®</sup> Image Enhancement Software to speed up the capture process and to improve the image quality substantially with auto cropping, analysis of image quality, automatic correction of color distortions, and adjustment of brightness and sharpness.

## **Press Release**

Digital Identification Solutions will introduce the new program to the public at the next upcoming trade fairs and exhibitions.

### **About Digital Identification Solutions**

The Digital Identification Solutions Group is a global provider of advanced identification solutions with a worldwide installed base of almost 8.000 systems. In September 2007 the Group has introduced the latest *EDIsure*<sup>®</sup> XID 5xxie Retransfer Printer generation successfully into the world market. The company has sales, marketing and support operations in Germany, the United Arab Emirates, Singapore, China, the United States and Mexico. Together with its vast network of certified partners, Digital Identification Solutions is in a position to deliver state-of-the-art solutions virtually anywhere in the world. The company combines cutting-edge technology, extensive industry know-how and an impressive array of references in the private and public sector.
